

Improve access and inclusion with our clinical trial solutions

Our end-to-end services for clinical trials includes flexible modeling through traditional sites located in underrepresented* communities within trusted healthcare relationships and additional research opportunities for patients with DCT/hybrid solutions. We provide experienced and culturally competent research staff for PI oversight, as well as contracts, budgets, compliance, regulatory staff.

Phase I, FIH Allergy Case Study:

A randomized, blinded, placebo-controlled phase I study to assess the safety and efficacy of an investigational drug in adults with peanut sensitivity. Participants were randomized in a 3:1 ratio to receive either an escalating dose of the IP or a placebo. Circuit committed to enroll 16 patients and **exceeded enrollment at 32 patients.**

43%

underrepresented* patients

70

patients screened

Phase II-III, RSV Case Study:

A phase 2/3, randomized, observer-blind, placebo-controlled study to evaluate the efficacy and safety of an investigational vaccine targeting respiratory syncytial virus (RSV) in adults. **Circuit exceeded enrollment by 25% at 52 patients** and ranked Top 4 globally for retention, placing us in the top 1.5%

26%

underrepresented* patients

60

patients screened

*Historically, participant representation reflective of the patients that will use the medical products has only sometimes been the case. Underrepresented patients are racial and ethnic minority groups, gender groups, age groups, and socio-economic groups.

A Community Research Network built for clinical trials

Circuit Clinical is an Integrated Research Organization (IRO) with a rapidly growing community site network and experienced research team. Conducting clinical trials in the US to provide access, awareness, recruitment, screening, enrollment, and retention for patients.

Efficiently enroll participants

Accelerate recruitment

One trusted point of contact

Increase patient inclusion

Provide better ROI to sponsors

Let's transform research together.

Our healthcare providers are trusted to deliver on Phase I-IV clinical development. We're continually growing our network and therapeutic expertise.
